

Facts

Who We Serve

Perot Systems applies integrated technologies and process solutions that are tailored to client needs. Our service model features a mature global delivery platform and deep industry expertise along with a corporate mission of operational excellence. We serve more than 1,000 clients in Healthcare, Government, Manufacturing, Consumer Products and Services, and Financial Services.

Healthcare

Perot Systems has long been recognized as a leader in providing IT, applications, and revenue cycle outsourcing solutions for the healthcare industry. We:

- Facilitate the use of innovative technologies to improve patient safety and quality of care.
- Implement proven administrative, financial, and clinical processes to support care delivery and operations.
- Eliminate waste to achieve financial stability, clinical and administrative quality, and service excellence.

- Hospitals
- Payers
- Physicians
- Pharmacy and Supply Chain

Government

We provide outsourcing, consulting, and professional services that merge the best practices and efficiencies of the private sector with our deep understanding of the regulatory and mission requirements of the public sector. We offer:

- ITIL-based best practices delivering both government-owned/contractor-operated and contractor-owned/contractor-operated solutions.
- Services built on mature assessed processes and industry-leading best practices in Service Oriented Architecture (SOA).
- Deep expertise in federal financial and budget solutions, process improvement, scientific and engineering services, and CIO enterprise management support.

- Civilian Agencies
- Department of Defense
- Homeland Security
- Intelligence Communities

Manufacturing

We help clients meet their goals and specifications in large-scale production environments by providing infrastructure and applications solutions and technical expertise for all phases of the manufacturing process. We:

- Deliver lean product engineering and design technologies to increase productivity and innovation.
- Energize the conversion of raw materials and component parts into finished goods through comprehensive integration of technology.
- Reduce cost and waste by applying best-practices, process engineering, and ERP technologies to supply chain and resource management.

- Mill Products
- Power Generation
- Industrial Equipment
- Automotive
- Aerospace

Consumer Products and Services

We help clients who produce products or provide services be more responsive to their customers by implementing, optimizing, and reducing the cost of technology-based solutions. We:

- Optimize infrastructure and applications to increase resource management and production efficiencies.
- Implement, improve and maintain core management and ERP systems for highly effective supply chains.
- Create effective decision support systems through enterprise data integration and informatics.

- Consumer Packaging
- Travel, Transportation and Logistics
- Telecommunications and Mobility
- Media
- Professional Services

Financial Services

We help clients meet target goals in regulatory compliance, cost-per-transaction, and customer retention with infrastructure, applications and business process consulting and outsourcing solutions that can improve core services and critical processes. We:

- Provide consulting and re-engineering services focused on end-state infrastructure and applications architecture.
- Develop, test, and maintain bespoke applications and integrate products to provide seamless operations.
- Shorten new business timelines by accelerating product implementations.

- Investment Banking and Capital Markets
- Payments and Cash Management
- Commercial Banks
- Cards
- Loans and Mortgages
- Life Insurance

About Perot Systems

Founded in 1988 by a team of eight technology industry pioneers, including Ross Perot.

Fortune 1000 corporation with 2008 revenues of \$2.8 billion.

Employs more than 23,000 associates serving more than 1,000 clients in North America, Europe, the Middle East, and Asia.

Maintains a global network of delivery centers and manages more than 288,000 desktops, notebooks, and servers worldwide.

Named to *Fortune* magazine's "Most Admired Companies in America" list for IT Services for third consecutive year (2006-2008).

Perot Systems earns Outsourcing Excellence "Best Partnership" Award with Harvard Pilgrim Health Care (2008) and Old Mutual Financial Network (2007).

Perot Systems leaps 19 places on Washington Technology's Top 100 List and is ranked #41 for 2008.

Made *Forbes* magazine's "Platinum 400 Best Big Companies" list for the fourth consecutive year.

Listed on the New York Stock Exchange as "PER".
