

## **Charlotte Hovet, M.D., M.M.M., C.P.E.**

***Physician Executive, Clinical Transformation***

Dr. Charlotte Hovet is a Physician Executive in the Perot Systems Clinical Transformation division with extensive experience in medical management leadership and medical staff governance. She has demonstrated strengths in the implementation of patient safety and medical quality initiatives, which resulted in improved, measurable clinical outcomes. With a focus on physician engagement, Dr. Hovet leads clients through a clinical transformation process that is based on the effective alignment of people, process, and technology, and utilizes her expertise in mentoring and motivating clinicians to develop effective solutions related to clinical information systems.

Prior to joining Perot Systems in 2006, Dr. Hovet served as the Senior Medical Director of Care Management for Altru Health System, an integrated not-for-profit health care system. Dr. Hovet has a strong record of clinical credibility, having practiced as a board-certified family physician for 20 years. Throughout her many experiences in leading physicians through change, Dr. Hovet has promoted a vision of patient-centered care, evidenced-based practice, and a culture of organizational excellence.

Dr. Hovet's experience as a skilled physician includes family practice, obstetrics, and urgent care. She is a strong educator and advocate for addressing the widespread problem of domestic violence, teaching medical and allied health professional students and physicians at large, generating awareness, prevention, and intervention strategies.

Dr. Hovet has an M.D. from the University of Colorado Health Sciences Center, in Denver; a masters degree in Medical Management from Tulane University, in New Orleans; and a bachelor of arts degree in Psychology from the University of Colorado, in Boulder. Dr. Hovet is board-certified as a Physician Executive with the Certifying Commission in Medical Management. She is also a member of several professional organizations, including American College of Physician Executives, American Academy of Family Practice, American College of Medical Quality, as well as many others.
