

Aerospace Quality System Requirements— AS 9100

AS 9100, the first single standard for the global aerospace community, builds upon ISO 9001, AS 9000, Japanese SJAC9100, and European EN9000-1 requirements to produce a harmonized standard for aerospace companies worldwide. Many major aerospace companies are promoting AS 9100 compliance to their suppliers; compliance will be required by the end of 2003. Boeing already has announced that they will require adherence to AS 9100, and several major military air repair stations and depots that have achieved ISO 9001 registration are in the process of obtaining AS 9100. With major industry and government promotion, suppliers at all levels must implement AS 9100 to remain competitive in the industry.

Benefits

The industry's major global players, and government and military organizations, are driving AS 9100. Suppliers will have to comply with the requirements of AS 9100 to increase competitiveness and maintain current commercial and government contracts. The reported and anticipated benefits of AS 9100 include:

- Cost reductions
- Customer contractual requirement satisfaction
- Increased competitiveness
- Obtaining/maintaining international business
- Decreased manufacturing time to market
- Increased efficiency
- Increased bottom line

Our Solutions

Perot Systems considers your current understanding of AS 9100, available resources, timeline, and objectives, and then provides a customized package of one or more of the following products and services to meet your business needs:

- Training
 - ▲ Documentation Development
 - ▲ Implementing Process Improvement
 - ▲ Internal Auditing
 - ▲ Introduction to AS 9100
 - ▲ AS 9100 Management Overview (complementary)
- Assessments
 - ▲ Gap assessment
 - ▲ Pre-assessments
- Consulting
 - ▲ Implementation planning
 - ▲ Documentation support
 - ▲ Implementation support
 - ▲ Registrar selection assistance
- Program Management Services—We facilitate improved quality and ISO 9001/AS 9100 compliance for multiple sites, suppliers, or association/agency members.
