Our Vision: Healthy patients interacting with a safe, efficient, consumer-friendly healthcare system.

Our vision for healthcare is simple. We want patients interacting with a safe, efficient, consumer-friendly healthcare system. At Perot Systems, we're committed to achieving this vision by combining the right people, processes, and technologies to truly transform healthcare.

Our full range of healthcare solutions address the fundamental processes necessary to support the delivery of patient care— clinical, administrative and financial processes. We've spent almost 20 years perfecting business process and technology solutions that you can trust.

Trusted Solutions for Proven Results

Solutions for hospitals and health systems: We provide client-focused solutions that deliver clinical transformation, financial optimisation, and technology innovation. Our comprehensive solutions help you align technology with your business strategy to achieve improved patient safety and quality, cost-effectively.

Solutions for clinicians: We provide organisations with new capabilities to enhance financial performance, implement integrated, collaborative electronic health records, and transform clinical processes. Our IT and finance solutions provide a self-funding vehicle for clinical transformation investments.

Solutions for health commissioners and insurers: We provide high-quality and cost-competitive information technology and business process solutions that enhance administrative, clinical, and financial performance, disease management, and enable self-funding for new transformational investments.

Solutions for strategic health authorities: We deploy clinical, IT, and financial transformation solutions based on evidence and best practice to enhance operational and financial performance.

Solutions for community trusts and social services: We deploy electronic single assessment process solutions, and integrate with the broader healthcare ecosystem for seamless shared care.

How We Work for You

Drawing on our expertise as the industry's leading clinical, technology, and process professionals, Perot Systems offers premier solutions based on almost 20 years of innovation and teamwork.

We provide innovative clinical and business process solutions, coupled with technology, to achieve an environment that is interconnected, streamlined, efficient and patient-focused. We achieve this through:

- Benchmarking and diagnosing healthcare service delivery and infusing best practices
- Delivering clinical transformation and decision support
- Improving, integrating, and outsourcing business and finance processes
- Designing, implementing and managing collaboration and shared care services infrastructures, including electronic patient records
- Selecting, implementing, managing, and outsourcing technology including enterprise and clinical applications, data migration, Picture Archiving, Communications Systems, and Radiology Information Systems

We are globally positioned like no other company to provide the knowledge, leadership, and expertise in delivering solutions that combine our core competencies with your strengths.

The result is consistent success, long-term strategic value, and a solid return on investment.

Who Trusts Us

- More than 620 hospital and healthcare facilities
- Department of Health and NHS in England
- Thousands of care providers
- More than 130 health insurance initiatives
- Supply chain clients representing approximately £3 billion in distribution business annually
