Perot Systems Lands Coveted #1 Position in 'Best in KLAS' Awards for 'Clinical Implementation - Principal'

Company Tops Clinical Implementation Rankings for both Performance and Customer Preference in 2008

Plano, Texas - December 22, 2008 - Perot Systems (NYSE: PER)

(www.perotsystems.com) today announced that its Healthcare business unit has been ranked #1 in the 2008 Top 20 Best in KLAS Awards report in the category of 'Clinical Implementation - Principal'. This award from the KLAS organization represents the second honor for Perot Systems in 2008. In March of this year, Perot Systems received the #1 performance ranking in a KLAS report examining professional services firms that provide clinical implementation services¹.

"Our #1 ranking and 'Best in KLAS' award for 'Clinical Implementation - Principal' validates the impact that our strategy of using experienced clinicians is having in this market. The two top rankings we received from KLAS in 2008 demonstrate our strengths in the extremely important categories of performance and customer satisfaction. The reputation of KLAS for rigor and commitment to objective client feedback confirms that our clinical implementation capabilities are without a doubt world-class," commented Chuck Lyles, president of the Perot Systems healthcare group.

"We have relied on Perot Systems as one of our partners for implementation of clinical systems and together we have achieved outstanding results. They are a company that we can trust. Perot Systems' associates have technical and clinical expertise which enables our team to realize tangible benefits," stated

Liz Johnson, Vice President, Applied Clinical Informatics, Tenet Healthcare Corporation.

“As economic conditions become more challenging, healthcare providers are under tremendous pressure to make every investment - and every dollar - count,” said KLAS President Adam Gale. “The Best in KLAS awards were created to help providers make smart buying decisions, allowing them to cut through the hype to identify companies, products and services that are the best-performing in the healthcare industry. The 2008 Best in KLAS honorees represent a select group of healthcare software and services vendors that have demonstrated leadership in working with customers to resolve issues and match expectations to reality.”
